

When admin select “no coupons” form the backend cart price rules

Header

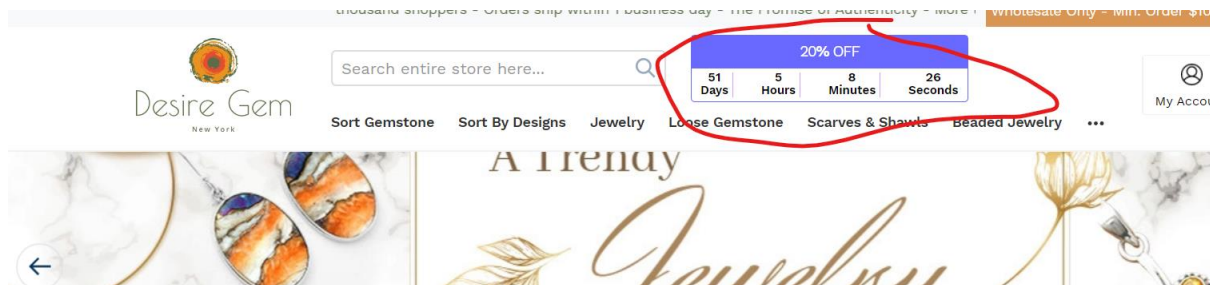

Customer Groups * NOT LOGGED IN
General
Wholesale
Retailer

Coupon * No Coupon

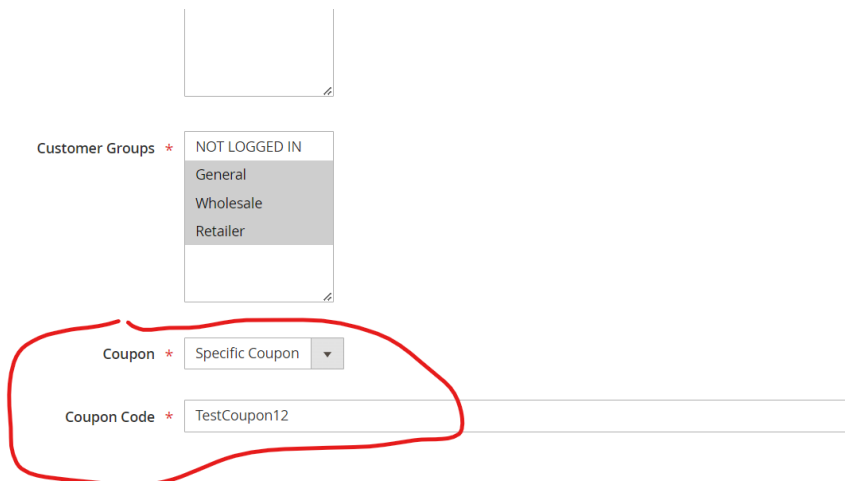

Usage per Customer 50
Usage limit enforced for logged in customers only.

From 01/22/2023
To 08/22/2023
Priority 1
Public in RSS Feed Yes

Then frontend header output will be show like below snapshot

When admin select “specific coupon” from the backend

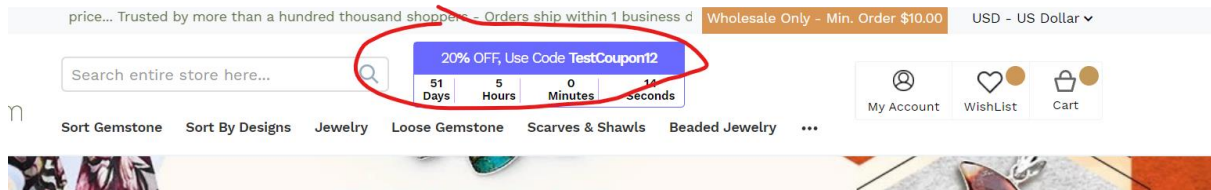

Customer Groups * NOT LOGGED IN
General
Wholesale
Retailer

Coupon * Specific Coupon

Coupon Code * TestCoupon12

Then frontend output will be show like below snapshot

I have created a static block and identifier is "header_coupon_block"
coupon code functionality will depend on enable/disable static block functionality.
